Rumors That Constitutionalists Are Preparing to Dynamite Piedras Negras May Have Caused Activity of American Army Officials.

San Antonio, Texas, Sept. 29.—Two squadrons of cavalry, one machine gun platoon and a field artillery battery were rushed in three special trains to Eagle Pass this afternoon.

No reasons are given, but rumors that the constitutionalists intend to dynamite Piedras Negras if they are forced to evacuate it, are believed to have something to do with the sudden movement.

It is also said that the troops might take charge of the situation if the constitutionalists are defeated in the impending battle and flee across the border.

## CLEVER SCHEME TO SHIP WHISKEY

IS NIPPED IN BUD BY A DEPUTY MARSHAL AT THE TOWN OF MIAMI.

Muskogee, Okla., September 29.—One of the cleverest and boldest schemes to ship whiskey into the Indian country was nipped in the bud by Deputy U. S. Marshal Carl Garman at Miami. As a result Jack Street, in the federal prison here and 75 cases of whiskey are held for confiscation.

Garman was prowling around the Miami railroad yards watching for shipments of liquor from Joplin. He noticed a car that had a horse, a man and about a half a carload of hay on it. It was sort of a queer combination, so Garman asked the man in the car what about it. The latter said that he owned the race horse he had in the car, that he was on his way to the races at Tulsa and that he was taking the hay along for the horse because he couldn't buy hay in Tulsa. The horse didn't look like much of a race horse and the officer also saw harness marks on him. But when he saw the horse was rough shod, he knew there was something wrong. He decided to take a look at the hay. The first bale he pulled out showed that there was just one tier of bales securely packed across the car and back of that were stacked the 75 cases of liquor.

## EQUIP ENGINES TO CARRY FIRE HOSE

M. K. & T. BELIEVE BIG LOSSES OF COTTON IN TRANSIT WILL BE PREVENTED.

Muskogee, Okla., Sept. 29.—As a precaution and preventive against the fires that frequently occur along the line and which destroy lots of cotton and other combustible materials either in the yards or while in transit, the Missouri, Kansas & Texas Railway company is making arrangements to equip 100 or more of its engines with fire fighting apparatus. Each engine will carry 500 feet of hose which can be quickly connected with the injector on the engine which will force the water the full length of the train if necessary, or it can be used in the yards or around cotton compresses.

Successful experiments have already been made with this equipment, and while the Katy has taken the initiative in the matter the experiment is being watched with interest by other roads in the south and southwest, and it is likely that the scheme will soon be adopted by other companies.

Thousands of dollars worth of cotton is burned up annually on railroads while in transit to gulf ports. Heretofore the railroads have had no way to extinguish the fires and the cotton has been dumped off the cars wherever it caught fire. Disastrous fires have originated around railway yards and compresses that might very easily have been stopped with this new equipment for a locomotive.

The equipment of switch engines will be an especial safeguard and will insure protection against fire to railroad property and private property alike in every town.

## COURTS BY PROXY WEDS--WIFE GONE

MISSOURI FARMER HAS BEEN SHOWN BY EMPLOYE WHO MADE MATCH FOR HIM.

Waverburg, Mo., Sept. 29.—Richard Myers, a young farmer living in Columbus township, has returned from Kansas City after a futile effort to find his wife. Myers says he married a young Swedish girl in Kansas City some weeks ago, but that she left him the same day, ostensibly to visit her friends, and he has not been able to find her since.

Myers's marriage was not without a romantic feature, as he tells it. On his farm he had employed a Swedish hand during summer. They "bached" at the farm house and the Swede intimated to his employer he should marry. Myers says he replied he knew no American girl who would marry him, and that the Swede told him of a beautiful girl who lived in Sweden, giving Myers her address.

Myers says he wrote, and the girl answered in the Swedish language, the farm hand translating it for his employer.

The correspondence continued and photographs were exchanged. Then came the proposal of marriage and its acceptance. Myers says he hastened to the nearest postoffice and sent his fiancée a money order for \$112 for her transportation. The girl started to America immediately, coming to Odessa, Mo. Myers met her, the Swedish farm hand still acting as interpreter. Myers says he and the girl went to Kansas City where the ceremony was performed. The girl, Myers says, then made an excuse to visit friends in Kansas City, and he has been unable to get no trace of her since. The Swedish farm hand has also disappeared, Myers says.

WAT BIBLE KEPT FROM MAI.

Petition to Burleson Asks Exclusion on "Immorality" Basis.

Washington, Sept. 29.—Declaring that the Bible should be excluded from the mails on the ground that it contains immoral matter, a certain body of American citizens has sent a petition to Postmaster General Burleson urging him to take the action they desire.

Some of the department officials today pointed out the fact that the denial of mail privileges to alleged objectionable books, pictures and other publications frequently has been the means of securing a great amount of free advertising and enormous sales for the government barred matter. They laughingly refused to commit themselves when asked whether they thought it could help increase the sale of the Bible if its passage through the mails were to be denied.

SHORTS IS JURY FOREMAN.

Morgan and Other Rich Men to Sit at Aumuller Inquest.

New York, Sept. 29.—Coroner Fainberg said today that Theodore P. Shonts, president of the Interborough Rapid Transit Company, would act as foreman of the jury that will sit at the inquest of the Anna Aumuller murder case. The coroner expects there will be more distinguished men on this jury than on any other that ever served in New York county.

Among those summoned are J. P. Morgan, Robert L. Gerry, Harry Payne Whitney, Henry Stieglitz and George F. Fairchild.

Most of these, the coroner said, are willing to act as jurors.

## MARSHALL COUNTY CARRIED BONDS

WILL BUILD \$75,000 COURT HOUSE IN MADILL. VOTE ON BRIDGE BONDS VERY CLOSE.

Marshall county has closed one of the warmest elections it has ever held and the votes are being counted today. It is stated that the bond issue of \$75,000 for the building of a court house carried with a majority ranging from 45 to 65 votes. The election was close but the bonds have carried by a safe majority. Much credit for the successful election is due to the News-Democrat which waged a hard-fought battle from the day the election was called until the last vote was cast. The Socialist Herald, published at Madill made a stubborn fight for the bonds. Some of the papers in the county were against the issue.

The bonds proposed for bridges to cost \$50,000 have probably carried, but the contest is so close that it will not be known until the last vote is counted.

Madill and Marshall county and its progressive press are to be congratulated upon the outcome. Marshall county needed a court house with its broad acres of fertile lands and its magnificent brick buildings and big bank deposits it was fully able to build a home that would protect the records of the county from the ravages of fire.

The next fight ahead of Editor Wyatt is for home material and in making such a fight he is justified. Madill is located near the great granite beds of southern Oklahoma and it would be a fitting tribute to the wealth of Oklahoma for the commissioners to specify this granite for the base of the county court house.

MONEY IN FARMING.

What Mr. Alverson Thinks of Winter Barley as Pasture and Feed Crop. J. S. Alverson was here today from Glenn exhibiting some very fine barley seed which he raised this year. He has about 200 bushels of the seed for sale. Mr. Alverson says winter barley is a better winter pasture than either wheat or rye, it makes about as much to the acre as oats, it matures two weeks earlier than wheat and is a surer crop and he would rather have one bushel of it to feed than one bushel of corn.

Mr. Alverson marketed last week seven head of 10-months-old hogs to William King of this city. The hogs had never been fed anything but barley and alfalfa. The seven head weighed out \$126.95 and he has a contract with the Ardmore firm to deliver them a load each week.

## HOUSE TO VOTE ON CONFERENCE TODAY

DEMOCRATIC LEADER UNDER WOOD OPENED DEBATE IN THE HOUSE TODAY.

## EXTREME LOW RATES

Underwood Declares That Proposed Bill Provides Lowest Rates of Any Tariff Bill For Last Three Quarters of a Century.

Washington, D. C., Sept. 30.—Democratic leader Oscar Underwood today opened in the house the debate for the adoption of the conference committee's report on the tariff bill.

He said "the rates of the tariff as it comes back to the house for approval proposed a lower taxation than any tariff bill in the last three quarters of a century. This bill with its twenty-six per cent average is almost as low as the famous Walker tariff, which had low duties on liquor and tobacco."

The existing Payne law, he said, has an average of forty per cent, while the Wilson bill, passed in Cleveland's administration, had an average of over thirty-nine per cent. The total government revenues for 1915, he declared, would be \$1,025,000,000, a surplus of \$18,000,000.

It is expected that the conference report will reach a vote at four o'clock this afternoon and there seems no doubt of its adoption, after which the cotton futures tax debate comes up.
